

Mobile Resources

For more information access the Mobile Resources Guide:

<http://kplibraries.libguides.com/mobiledevices>

PubMed, MedlinePlus, STAT!Ref, and MD Consult are all searchable from the browser on your mobile device.

You must register in advance for both STAT!Ref and MD Consult.

Mobile apps are available FREE for KP Employees:

Access Medicine: Mobile downloads are available for Diagnosaurus as well as for specific content from electronic textbooks and the "Quick Answers" section.

Dynamed: To get mobile access to Dynamed, contact dynamedsupport@epnet.com from your Kaiser Lotus Notes e-mail. They will send you a serial number to activate your account.

First Consult: Evidence-based disease topics are available for your mobile. Create a free personal account on MD Consult, then download the First Consult app from the iTunes store and access it using that name and password.

KP Formulary (Lexi-Comp):

The mobile formulary includes access to Lexi-Comp's drug interactions database and medical calculator. Go to the National Pharmacy home page at <http://pharmacy.kp.org> and click the "PDA Center" link for downloading instructions.

Micromedex: Includes both the drug monographs and disease and laboratory test info. Click the "Mobile link" on the home page for info on downloading and free iTunes apps.

Natural Standard: Instructions and the code for downloading the mobile app are available from <http://www.skyscape.com/natstd/kp>
